

COTTAGE

Kronberg Oak & Textured white

The 'Cottage' collection creates a 'country home' feel, so you enjoy the time spent in your stylish and elegant living area!

COTTAGE

Kronberg Oak & Textured white

The country home trend

Our designer says

The inspiration for the 'Cottage' collection comes from the 'country home' trend of living room decoration that is full of style and elegance!

The white wood and light oak tones of the 'Cottage' collection updates the traditional look of a rustic interior.

Its new, textured white melamine decor adds a distinctive softness and a modern feel to the room, while being easy to care for. The sturdy base gives a robust look and helps to create a warm, cozy atmosphere.

This is a timeless collection of furniture that is reminiscent of the pastoral feel in traditional country homes.
